EXPERIENCE

King Soopers/City Market, Denver — *Pharmacy Technician*

May 2018 - PRESENT

Type up electronic and written prescriptions for data records.
Bill patient insurances to check for any conflicts with insurance.
Fill scheduled prescriptions for patients in a timely order.

EDUCATION

University of Colorado Denver, Denver — *Biology*

August 2015 - December 2019

Bachelor of Science in Biology

PROJECTS

Beer Palate — *Beer Api Usage for Consumer Info*

Utilizing a third party api, we created an application to allow users to search up information about their favorite IPA beers. The information searched up can be saved to local storage and otherwise be valuable consumer info for beer.

Deployed: <https://nle97.github.io/Beer-Palate/>

Weather Dashboard — *App for Weather Data Viewing*

Demonstration of usage with OpenWeather API, creating a weather dashboard allowing users to view weather and five day forecast of their favorite city.

Deployed: <https://nle97.github.io/weather-dashboard/>

Password Generator — *Creating secure passwords*

Utilizing the fundamentals of Javascript, this app was created to allow the user to create secure passwords, taking into account criterias to make it secure such as password length, uppercases and special characters.

Deployed: <https://nle97.github.io/Password-Generator/>

SKILLS

JavaScript, HTML, CSS,
Bootstrap, NodeJS, JQuery
